Nelson Mandela lived 95 years, encountered Poverty, Injustice and Strife.
Emerged with Courage, Character, Aspirations and a Purpose to his Life.
Led to his Imprisonment, with constant threats of the Firing Squad or Rope.
Stood up for Race Equality and Social Justice, never did he give up Hope.
Others might have Compromised, looked for Favours and Personal Gain.
Not Nelson Mandela, he endured much Persecution, Deprivation and Pain.
Twenty Seven Years on Robin Island, only increased his Determination.
Make your Progress through the Ballot Box, Peace Talks and Negotiation.
An Example to All World Leaders, to let threats of War and Killings Cease.
Nothing is more valuable than Freedom, to have Respect and live in Peace.
Democracy has to be the best Solution, end the Hatred, Conflict and Wars.
Embrace a Universal Fellowship, apply Equality to All International Laws.
Last Great Liberator of the 20th Century, His great Legacy and Accolade.
An Endorsement of his Qualities and Immense Contribution that he made.
